To whom it may concern:

This letter of reference is for Nature Bound Construction, whom the City of Roseburg recently contracted for the construction of the City's Sunshine Park Trails Expansion Project. This project consisted of building 7 trails segments totaling 2.9 miles in length for both hiking and mountain biking usage. A majority of the project was in steep terrain and included trail features such as in-sloped turns, culvert crossings, trail surfacing, and sections of trail armament.

It was a pleasure to work with Nature Bound Construction. They paid close attention to detail and were very professional to work with. In addition, they were able to work within an aggressive completion schedule and were able to complete the project on time and within budget. The project was successful and we would definitely recommend them for future work.

For further queries, please feel free to reach out to us.

Sincerely,

Daryn M. Anderson, P.E.
